C3200/C3200n

OKI
PRINTING SOLUTIONS

Fast, affordable colour for individuals in business

The only single-pass desktop printer available in its class, the new C3000 Series allows individuals in business to print professional-looking documents in colour and mono without worrying about the cost – or the time it will take.

Super-fast speed.

Delivering 12 pages per minute (ppm) colour and 20ppm mono, the new C3000 Series leaves the average inkjet printer standing and thanks to OKI Printing Solutions' expertise in single-pass digital LED technology it is 3 or 4 times faster than conventional 4-pass laser printers.

Continuous reliability.

If you need quality colour and you need it fast, you can rely on the C3200 – regardless of what size or format you need to print. The same market-leading single-pass technology that gives the C3200 its speed also ensures that it is highly reliable and extremely versatile. The straight paper path means less jams and smoother handling across a wide range of paper types and weights.

Amazing print quality and document versatility

With special features such as new Photo Enhance which enables you to print photo-like quality pictures on standard office paper and Auto Colour Balance which ensures colour consistency throughout the life of the printer, you can print virtually anything on the C3200 and achieve fantastic results. Template Manager software allows you to produce documents in a wide range of different formats from reports and presentations to business cards and banners quickly and easily. In addition, the C3200n offers an optional duplex unit that enables you to produce professional looking double-sided documents and booklets.

Better for everyone

With built-in networking as standard the C3200n is simple and cost effective to share with your colleagues – giving everyone the power to create and print professional-looking documents in colour, in-house, in minutes. If you or your colleagues ever need help or advice, the 'Ask OKI' tab in the printer driver will take you straight to an information-packed web site specific to the C3200 or C3200n. It's all part of our commitment to empower every user to produce exceptional results: first time, every time. We call it **Chromability™ – in-house colour made easy, only from OKI Printing Solutions.**

Highlights:

- **12ppm colour and 20ppm mono**
- **Built-in networking on the C3200n allows the printer to be shared by multiple users**
- **Photo Enhance allows photo-like quality pictures to be printed on standard office paper**
- **Auto Colour Balance ensures consistent colour throughout the life of the printer**
- **Flat paper path allows printing on media up to 203gsm paper weight**
- **300 sheet paper tray plus 100 sheet multi-purpose tray for low user intervention**
- **Optional duplex functionality for double-sided printing on the C3200n**
- **Template Manager software makes printing a range of document formats from business cards to banners, quick and simple**
- **Operator panel with LCD screen display on C3200n**
